BEACH HOTEL DHIGURAH

Factsheet

“Welcome to the Maldives! Where you can walk barefoot on a white sandy beach, with the sunrays in your eyes and where the fish happily spins into the crystal-clear warm waters”

WELCOME TO “ARI ATOLL”, MALDIVES!

Discover the breathtaking beauty of the Maldives, where powdery white sand beaches, warm crystal-clear waters, and vibrant marine life come together to create the ultimate island escape. Nestled in the heart of the South Ari Marine Protected Area, Ari Atoll Dhigurah is one of the Maldives' most coveted destinations—renowned worldwide for its year-round whale shark sightings and exceptional snorkeling and diving opportunities.

Set on the stunning island of Dhigurah, which stretches over 3 kilometers in length, Beach Hotel Dhigurah offers an unforgettable stay just steps away from the famous Dhigurah Bikini Beach. The island is easily accessible from Malé International Airport via speedboat, seaplane, or domestic flight, making it a convenient yet secluded retreat for couples, families, and solo travelers alike.

Choosing Beach Hotel Dhigurah means immersing yourself in the rich culture, natural beauty, and tranquility of island life. The island's charming local village occupies only a small portion of the land, allowing the majority of Dhigurah to remain untouched and pristine. Guests can explore lush tropical forests, discover traditional Maldivian farming practices, and enjoy a scenic walk to a stunning natural sandbank located at the island's tip—perfect for sunset views and romantic strolls.

Dhigurah Island is a sanctuary for nature lovers and eco-conscious travelers. Wildlife on the island is peaceful and includes friendly lizards, colorful butterflies, and a variety of native bird species. Whether you're here to unwind on the beach, dive with majestic whale sharks, or savor authentic Maldivian cuisine, Beach Hotel Dhigurah offers the ideal blend of adventure, relaxation, and cultural immersion.
